

A 3D scatter plot illustrating the relationship between protein content (proteini brašna [%]) on the x-axis and ash content (poprsek popraška [%]) on the y-axis. The x-axis ranges from 8 to 14, and the y-axis ranges from 0 to 50. The z-axis represents an unlabeled third dimension. The data points are green circles, showing a positive correlation between protein and ash content.
